v10 Server Engines

32-bit Server includes 32-bit Client requester.
64-bit Server includes 32-bit and 64-bit Client requester.
Additional licenses require the purchase of a User Count Increase (UCI) in order to be stacked.

v9 Server Engines

Only available in 32-bit editions.
32-bit Server includes 32-bit Client requester.

User Count Increases

UCIs can only be added to an existing Pervasive PSQL Server Engine deployment.
Operating system and platform (32-bit/64-bit) must match original licensed version.

Upgrades

Upgrade must be to the same user count or one level higher (downgrading not allowed).
Upgrades are applicable for cross-platform switches.

v10 Cross Platform Switch and Bit Switch

Upgrade must be of same user count.

Workgroup Licenses

Standalone licenses are for a single user with no file sharing.
Peer-to-peer licenses are for a 3 or 5 user with file sharing.
Additional licenses require the purchase of a User Count Increase (UCI) in order to be stacked.
UCI licenses are stackable up to five total users.
Deployment license can be distributed in 1 user increments for Workgroup standalone, non-stackable.
Deployment license can be distributed in 3 or 5 user increments for Workgroup peer-to-peer, stackable.

Internet \ Intranet Licensing

Licensing is per physical server with no CPU restrictions.
License includes a 6-user administrative license and a Network License Amendment for internet service to permit unlimited user access through the internet for non-private users.
However, local network connections are still constrained under the standard Server Edition license.
Terminal Server and Citrix deployments are not eligible for Internet/Intranet licensing.

DataExchange Real Time Backup

DataExchange 2.8 is for PSQL v9.50 only.
DataExchange 3.0 is for PSQL v10.10 or higher.
DataExchange 3.0 is available in 32-bit only.
DataExchange 3.0 supports Windows 2000/2003/XP/2008 only.
Real Time Backup Edition includes one DataExchange license for use with two Pervasive database engines (primary and the backup). It also includes a Pervasive one-user license for both systems.
DataExchange Real Time Backup Edition engines are restricted to one-way replication, and the replication network is restricted to two databases only.
Use of the Backup server is restricted to a non-production mode Backup only. If the server is used for any other purposes then an applicable Pervasive PSQL license is required.

DataExchange user counts must match or exceed the Pervasive PSQL user count. PSQL user counts above 50 must use an unlimited DataExchange license.

AuditMaster

AuditMaster for Windows includes both a PSQL v9.50 and PSQL v10.x version.
AuditMaster client components support Windows NT/2000/2003/XP/2008.
AuditMaster user counts must match or exceed the Pervasive PSQL user count. PSQL user counts above 50 must use an unlimited AuditMaster license.
NetWare is only supported with Pervasive PSQL v9.50 (SP2).
AuditMaster is only available in a 32-bit edition.

Backup Agent

Backup Agent 1.1 is for Pervasive PSQL v9.50 only.
Backup Agent 2.0 is for Pervasive PSQL v10.10 or higher.
Backup Agent is licensed on a per server basis, there is no licensing limit on the number of users, files or databases.
Backup Agent 64-bit editions will only install and operate with a compatible Pervasive PSQL v10.10 64-bit edition.
